VOW TO LOOK YOUR BEST

Your wedding day is a special time for you, not to mention your mother and the mother of the groom. What better way to express your exuberance than to look and feel your best?

Whether you would like to freshen your look through microdermabrasion, receive Botox® Cosmetic for bothersome lines or Fraxel® Laser for aging or sun-damaged skin, the choices are better than ever.

Our licensed aesthetician, Sally Ann, can offer you relaxing, revitalizing facials and peels. She can also teach each of you how to apply your makeup for the day of the wedding, and recommend the colors best suited for your individual look.

Call The Vessely Center to discuss how the “something new” just might be you.

“... people came up to me that I had never met and told me how beautiful and glowing I looked! They never suspected a thing!” — Bride’s Mother

DR. VESSELY FEATURED SPEAKER AT INTERNATIONAL ASLMS CONFERENCE

Dr. Vessely was recently invited to speak at the 26th annual meeting of the American Society for Laser Medicine and Surgery (ASLMS) held April 5-9 in Boston.

with a thoughtful insight into my experiences with Fraxel® and the successful results my patients have received,” said Dr. Vessely.

Her presentation was titled: “Fractional Photothermolysis: Clinical Experience in 350 Fraxel® Laser Treatments.” As one of a handful of doctors in

the Northwest to offer Fraxel® Laser Treatment, Dr. Vessely shared her expertise and successes from the latest generation of lasers that microscopically treats aged and sun-damaged skin.

“I was honored to present my colleagues

The ASLMS was founded in 1980 to promote excellence in patient care by advancing clinical application of lasers and related technologies. Currently, the Society has over 3,000 members worldwide and is a

resource for laser research, safety, education, and clinical knowledge.

Call Dr. Vessely at 503.692.1190, ext.2, for a free consultation about how this groundbreaking laser treatment can benefit you.

The Vessely Center offers Hi-Tech solutions for *STRETCH* marks.

If you have stretch marks associated with childbirth, growth during puberty, weight gain or extreme loss, you are not alone. You like millions of others have probably tried expensive creams and special botanical oils that haven't really worked. Stretch marks may have become something you just live with.

With FDA approval for use on all skin surfaces, **Fraxel® Laser Treatment** and **Thermage®** can now successfully treat the effects of wrinkled and over-stretched skin. According to a recent issue of Vogue magazine, **Fraxel® is emerging as the “stretch mark eraser of choice of top laser experts across the country.”**

Combined or alone, each procedure is non-invasive, and requires little or no downtime. Call The Vessely Center for a free consultation. Dr. Vessely can recommend a series of treatment sessions best suited for you.

COMING SOON!

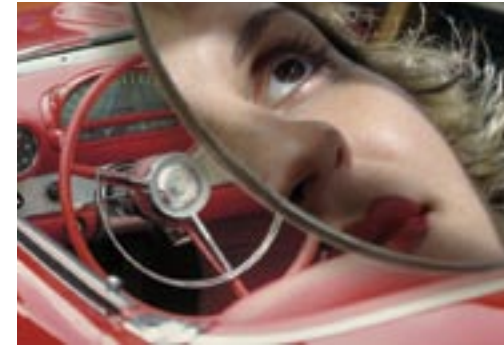

Eyes by Thermage®

The only procedure that smooths and tightens skin while decreasing wrinkles and hooding in the eye area – without surgery, injections or downtime.

Call the Vessely Center for more information and to schedule a consultation to determine if you are a good candidate for this procedure.

Stay tuned for more information about this extraordinary break-through. Be sure to subscribe to our E-newsletter to receive all late breaking news and specials!

ON THE ROAD OF LIFE, WHEN DO YOU RE-TUNE?

If we were to compare ourselves to the sleek machines we drive on the road, we might find some similarities. First of all, the age of the vehicle is not always proportionate to the amount of wear on the chassis. Secondly, the mileage of the car may or may not reflect on the condition of the exterior – it all depends on how the mileage was acquired.

Logically speaking, if 30,000 mile tune-ups give a vehicle additional torque, why can't we have a tune up?

A yearly “re-tuning” may be just what the mechanic ordered. If we look at ourselves with a 5-point checklist, we might find a few things that could use some adjusting:

✓ LINE DETAIL
Leave lines and creases to road maps. If your destination is a revitalized look, call Dr. Vessely for a free consultation. She can recommend a regimen to invigorate your life's journey through the most up-to-date treatments available.

✓ EYE WEAR
It's true that mileage on a car cannot be rolled back, but time's passages reflected around your eyes can be softened or erased. Fraxel® Laser Treatment may be your best option for allowing your eyes to reveal your brilliant vigor and confidence.

✓ CHIN UP
The areas under the chin and neck tend to relax over time as natural collagen production decreases with age, causing jowling. Thermage®, and its patented radio frequency that stimulates collagen production, is a quick, non-invasive option for your chin tune-up.

✓ DIAGNOSTIC BODY
There may other concerns braking your acceleration. Whether you have unwanted hair, leg veins or acne scars, there are solutions waiting for you. Perhaps microdermabrasion or a renewing facial is in order. You're definitely in the driver's seat!

✓ SMILE MILEAGE
The old adage “it takes more wrinkles to frown than to smile” becomes truer as we age. Are frown lines taking over your smile? Treatments such as Botox® and Fraxel® Laser Treatment can return you to your rightful grin.

Get back on the road of life.
Schedule your 30,000 mile tune-up at The Vessely Center today.

THE SKIN CANCER FOUNDATION RECOMMENDS

- ☀️ Seek the shade, especially during the sun's peak hours (10:00am-4:00pm)
- ☀️ Wear a broad-spectrum sunscreen with a sun protection factor (SPF) of 15 or higher.
- ☀️ Cover up with clothing, especially a broad-brimmed hat and UV-blocking sunglasses.
- ☀️ Avoid tanning parlors and artificial tanning devices.
- ☀️ Get vitamin D safely through a healthy diet that includes vitamin supplements.
- ☀️ Examine your skin from head to toe once every month.
- ☀️ Have a professional examination annually.
- ☀️ Avoid tanning and especially — **do not burn!** One blistering sunburn doubles your risk of melanoma.
